

Service Executive

Location: Ahmedabad

Type: Full-time

About Us

WOGOM is a B2B Commerce and Retail Enablement Platform, empowering 6,000+ retailers and 450+ sellers across India with better Products, Pricing, Credit, and Growth Opportunities. Our goal is to build a connected ecosystem where technology, capital, and commerce converge to help Indian retailers scale with confidence.

Role Overview

The Service Executive will contribute to the spare parts management process, ensuring high service quality and customer experience. They will work in a hybrid environment, leveraging problem-solving skills to drive results. This role directly impacts WOGOM's mission by delivering exceptional service to retailers.

Key Responsibilities

- Managing spare parts inventory and ensuring timely delivery to customers
- Providing technical support and resolving customer complaints
- Collaborating with the Brand Manager to develop and implement service strategies
- Analyzing service data and reporting to identify areas for improvement
- Ensuring high-quality service delivery to customers
- Collaborating with cross-functional teams to achieve business objectives
- Implementing process improvements to increase efficiency

Requirements

Must-Have Skills

- White goods product understanding to provide effective service solutions
- Spare parts management to ensure efficient inventory management
- Excel skills for data analysis and reporting
- Service CRM experience to manage customer interactions and service requests
- Ability to work in a hybrid environment
- Strong problem-solving skills to drive results

Nice-to-Have Skills

- Experience with service operations management
- Knowledge of quality management systems
- Certification in customer service or related field

Who Will Succeed in This Role

The ideal candidate is a detail-oriented, analytical, and strategic thinker who thrives in a fast-paced environment and is committed to delivering high-quality service. They are a team player who is

motivated and results-driven, with a strong background in white goods product understanding and spare parts management. The candidate must be able to work effectively in a hybrid environment and is committed to continuous improvement.
